

KITCHEN PHOTOELECTRIC SMOKE ALARM

Quell Smoke Alarms

Quell's range of smoke alarms provide a total smoke alarm solution for the home.

Each Quell branded smoke alarm is Australian Standard certified and comes with a 10 year warranty.

Protect your family

House fires develop in different ways and are often unpredictable. As smoke alarms have sensing limitations, it is recommended that both ionisation and photoelectric smoke alarms be installed to provide maximum detection of the various types of fires that can occur within the home.

Ionisation sensing alarms may detect invisible fire particles (associated with fast flaming fires) sooner than photoelectric alarms.

Photoelectric sensing alarms may detect visible fire particles (associated with slow smouldering fires) sooner than ionisation alarms.

Please refer to the user manual prior to installing any smoke alarm.
